About the Seminar

India has a rich tradition of learning and education right from the antiquity. These were handed over generations to generations either through oral or written medium. The approach of our forefathers to life, their subtle analysis and codification of duties, all indicate their cherished spiritual values. Ancient Indian education is also to be understood as being ultimately the outcome of the Indian theory of knowledge as part of the corresponding scheme of life and values. India has a rich heritage of teaching and pedagogy. Much of India's history and information about various aspects of existence are contained within the Sanskrit language texts and Sanskrit literature is nothing but repository of Indian culture.
